Padmabhooshan Vasantraodada Patil
Institute of Technology, Budhgaon, Sangli
2017 – 2020

SSC,
Rani saraswatidevi kanya school, sangli
2017

PROJECTS

Intelligent Sign Language Recognition Using Python And OpenCV

A sign detector is used to detect hand and other gestures where these gestures are a part of the sign language. The detector then displays messages for the specially aided people based on these specific movement.

Automatic Doorbell System

Classic doorbells can be seen in every house now a days, which uses simple button and when that button is pressed the bell rings. The doorbell which we are going to make is different from that. We will make a doorbell which is automatic.
